AngelEye Health Recognized as 2026 Inc. Power Partner Award Winner

Honored for the second consecutive year for its innovation, customer success, and commitment to hospital partners across the U.S.

NASHVILLE, Tenn., October 20, 2026 – AngelEye Health, a leader in neonatal and pediatric digital solutions, has been named a 2026 Inc. Power Partner Awards winner. The annual Inc. Power Partner Awards honor B2B companies that have demonstrated a track record of helping entrepreneurs and businesses navigate the challenges of building and growing a company through exceptional service, innovation, and customer satisfaction.

“Business owners have no shortage of tools at their disposal, and B2B companies need to make clear why their products and services are worth the investment,” says Bonny Ghosh, editorial director at Inc. “The companies on this year’s Power Partners list have done just that. They don’t just have customers – they have superfans and evangelists. Across industries like marketing, financial services, and technology, they’ve proved their dedication to helping fellow business owners grow and succeed.”

AngelEye Health was recognized for its dedication to helping hospitals deliver more connected, compassionate care across neonatal and pediatric units. This marks the second consecutive year AngelEye has been named an Inc. Power Partner. Today, more than 450 hospitals worldwide rely on AngelEye’s platform, which reaches about 20% of NICU families in the United States. The company has maintained 95% partner retention for more than 10 years, and has converted hundreds of hospitals to the AngelEye platform from competing camera and feeding management systems.

“Being named an Inc. Power Partner once is an honor. Earning it two years in a row tells us our hospital partners appreciatethe difference in how we show up for them,” said Christopher Rand, CEO of AngelEye Health. “Every product decision we make starts with the care teams and families in these pediatric units. This recognition belongs to our team and to the hospitals that trust us with some of the most important moments in their patients’ lives.”

The recognition caps a year of momentum for the company. In 2026, AngelEye was named to the Inc. 5000 for the fifth consecutive year, improving its overall national ranking by 32%. It also expanded its family support capabilities by acquiring the SupportSpot platform from Child Life On Call and launching new core functionality with Pulse Surveys and Educate, an automated family education solution, following its $9 million Series C funding round. AngelEye’s SOC 2

Type 2 certification and EHR integration further underscore its commitment to security, reliability, and seamless clinical workflows.

“At AngelEye, partnership is woven into everything we do, across every team,” said Luann Jones, DNP, RN, NE-BC, ANLC-N, Vice President of Customer Experience at AngelEye Health. “Our teams work side by side with nurse leaders and bedside nurses, lactation consultants, and discharge coordinators to make sure our solutions fit into real clinical workflows. Our partnership with hospital IT teams ensure clinicians feel supported. Hearing that our partners value that work is the best validation we could ask for.”
