CameraSystem

Live-Stream Video & Messaging

Impact Outcomes by engaging parents as essential members of the care team.

Our state-of-the-art CameraSystem delivers live-streaming video to families anytime, anywhere, on any device. Care teams can easily share one-way updates with real-time text, photos, and videos—reducing parental stress, supporting bonding, and improving staff workflow efficiency in the NICU or pediatric unit.

All in One App!

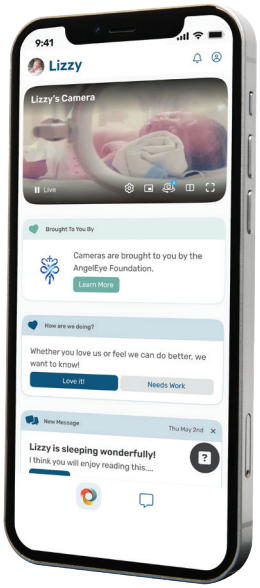

Language Translation: App translated into 70+ languages, powered by HIPAA-compliant Amazon Translate

One-way Messaging: HIPAA-compliant text, photo and video messaging

Pump Session Tracking: Increase milk volume by allowing parents to view their baby during pumping sessions while effortlessly logging time, date and volume

Flexible Viewing: Available through any browser; free Apps available for any device

Data Shows: Our CamaraSystem increases family satisfaction and mom's own milk at discharge

Using AngelEye cameras has shown to **increase staff engagement** by **11%**

What Makes Us **Unique**

Single Sign-On
ability for staff to log in with their facility domain, ID, and password

Bed Management
integration with hospital EHR to automate camera management process

Account Management
parents create and manage additional family members' accounts without sharing personal information

Free Spare Camera(s)
based on camera deployment to minimize downtime

Mounting Consultation
determine optimal mounting options for each unit

Donor Recognition
support initial and ongoing fundraising efforts and donor recognition

Support – Keeping your system running is our top priority.

Unparalleled Response Times

We strive to respond to every service request within 24 hours. **Our actual average response time is 1.7 hours!**

Timely Ticket Completion

Our goal is to close tickets within 72 hours. **Our actual average time to close a ticket is 12.3 hours!**

Clinical Support
Our clinical team is available to answer questions and provide 'best practice' suggestions. We offer ongoing training to ensure your team maximizes your investment.

Hardware Support & Repair
Minimizing downtime is our goal. We provide spare cameras to keep on-site if a camera needs immediate repair or replacement and offer the AngelCare Assurance warranty to protect your investment.

24/7 Family Support
Our US-based phone team relieves you of the burden of troubleshooting issues. The App has a self-service Password Reset option and a library of FAQs to address most issues.

Network & Technical Support
Remote status monitoring allows our US-based support team to monitor your system proactively to identify & resolve any issues that may arise.
