

Improve

NICU OUTCOMES

BY PROVIDING VISUAL CONNECTIONS
THAT GIVE PARENTS COMFORT
AND CONFIDENCE

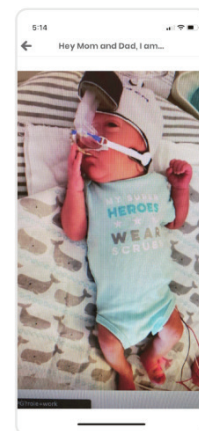

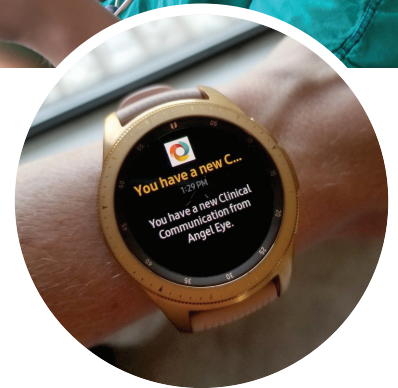

One-way PatientConnect™ allows care teams to easily share patient status and memorable moments with real-time texts, pictures, and recorded videos. The Solution supports workflows and engages parents as essential members of the care team from any connected device.

Benefits for Hospitals

- No prescheduling required
- Messages automatically erase after 24 hours or may be available for the duration of the patient's stay
- Disruptive phone calls are reduced
- Enhances continuity and consistency of communication with parents

Benefits for Parents

- Recognition as integral member of the care team
- On-the-go access with flexible viewing
- Video message replay option
- Push notifications alert parents when new messages are delivered
