

## IMPROVE NICU OUTCOMES BY PROVIDING ESSENTIAL EDUCATION

### ANGELEYE HEALTH EDUCATION SOLUTION

AngelEye Health's flexible Patient and Family Education application empowers parents and keeps them informed throughout their child's NICU stay and up to 90 days post-discharge with customized, multimedia educational material available via AngelEye Health's free iOS or Android app or any web browser.

Content can be marked as "core," ensuring all families automatically receive information on admission or can be assigned to meet the specific needs of each family. The platform supports original or licensed photos, videos, PDFs, and presentations organized in a flexible folder structure customized to meet the needs of your institution. The easy-to-use interface makes managing education content straightforward and effortless for your designee(s).

### INJOY HEALTH EDUCATION BASIC CLIP LIBRARY

[InJoy Health Education](#), the nation's leader in birth and parenting education, offers a special video clip library within the AngelEye platform that covers the entire NICU journey. Each short clip delivers essential evidence-based information through clear visuals and authentic stories, helping you teach parents of diverse backgrounds and learning styles. Clips are available in English and Spanish.

PATIENT AND FAMILY EDUCATION

#### With the InJoy Health Education Basic Clip Library, you will:

- Teach about the importance of pumping and breastmilk
- Orient new parents to the NICU and its equipment
- Empower parents to share in their baby's care and practice important self-care
- Increase discharge readiness
- Extend learning into the home

## INJOY HEALTH EDUCATION BASIC CLIP LIBRARY

The platform comes pre-loaded with InJoy Health Education content which includes 54 video clips (27 in both English and Spanish).
