Welcome

Thank you for choosing AngelEye! More than 100 hospitals use AngelEye Solutions, and we are very excited to partner with you. We provide HIPAA-compliant TeleEngagement Solutions that integrate parents simply and seamlessly into the patient's care. From admission to discharge, AngelEye Health positively impacts staff, families, and patients with our portfolio of Solutions that support the highly specialized needs of the NICU and PICU.

YOUR PROJECT DETAILS

Hospital Department: _____

Purchased Solutions: _____

# of Bedspaces: _____

# of Camera Licenses: _____

ADC: _____

Mounting Configuration: _____

_____

Project Overview

Total Project Timeline: Typically 8-12 weeks

Proposed Meeting Cadence: Weekly calls include a 30-minute clinical call and a 30-minute technical call.

Confirm Implementation Details:
- Determine if you are using the optional (recommended) ADT and SSO integrations.
- Determine your camera network configuration preference. We usually recommend a wired network connection with POE.

Resources Typically Involved

- **Project Manager** (if there is not an assigned Project Manager, the primary clinical contact or IT contact can be the main point of contact.)
- **NICU Manager or Unit Director**
- **Clinical Super User**
- **Nurse Educator**
- **Network Admin**
- **Biomed/Clinical Engineering**
- **Security/Firewall**

Essential Project Items

- **ADT Interface**
- **Bedspaces/Room #s/Naming Convention**
- **Network Testing**
- **Staff Training Sessions**
- **Hardware Installation**
- **Consenting Families**

Pre-Go-Live Activities

- **Work with AngelEye Clinical Advisors to Prepare for Implementation**
- **Determine Clinical Workflows and Unit Customizations**
- **Plan and Schedule Staff Training**
- **Foster Nurse Buy-in and Positive Change Management**

Next Steps

Your AngelEye Project Manager will be in touch to schedule a project kickoff call, provide a detailed project overview, answer any questions, and set a timeline for the implementation.
